**Request to reconsider entry of Applicant's Amendment After
Final Rejection**

Sir:

Applicant respectfully requests reconsideration the refusal to enter Applicant's Amendment received in the patent office on January 14, 2005 in response to the Final Rejection Dated January 5, 2005. The refusal to enter is believed based on the remarks in the "Continuation of 3." reading:

"The recited "...triangular walls spaced apart by perimeter walls" and "...the perimeter walls between triangular walls" are new issues requiring further consideration and search."

These remarks are addressing the amendatory language of, for example, amended claim 1 which Reads, as amended:

1. A building including the combination of an array of first, second and third triangular facades *each having triangular outer and triangular inner facing walls spaced apart by perimeter walls* with said second triangular facade having an *angular* projecting *perimeter wall* jutting from an elongated central axis *contained* at the junction of *said triangular inner facing walls* of said first and third triangular facades. (Emphasis added)

The refusal to enter overlooks, it is respectfully submitted, the recitations in original claims 12, 17, 19, 20, 21 and 22, repeated below with emphasis added.
